OCPP 1.6 Subset Certificate

Certificate holder: Daeyoung Chaevi

Certificate number: OCA.0016.0108.CS

Product type: Charging Station

Product designation: CS/DCV-3VC11C

OCPP Software version: CS.AC.1.0.1 / Hardware feature set as stated

below

Certification date: April 20, 2022

This certificate attests that the above mentioned product successfully completed certification testing in conformance with the reference specification OCPP 1.6 – Edition 2 with OCPP 1.6 Errata sheet (v4.0 Release, 2019-10-23). The optional features of the protocol covered by this certificate can be found in the abstract of this certificate.

Test cases have been performed as described in the test report referred to below. The results and remarks can be found in the complete test report.

Applied tests	Performed by / on	Document evidence
Conformance testing according to the test specification referenced by the test report	Korea Smart Grid Association, April 20, 2022	KSGA_20220420_Test Report _Daeyoung Chaevi

The abstract of test report in the Annex is an integral part of this certificate. This certificate is valid from the Certification Date specified above. This certificate is only applicable to the product designation described above and permits the use of the OCPP logo as laid down in the OCA certification logo license agreement on this product only.

This certificate shall neither be tendered nor accepted by any party as a guarantee covering quality of a product which includes OCPP. The Open Charge Alliance, and/or its agents, including, inter-alia, test laboratories, disclaim liability for any damages or losses incurred by the certified company or by any other party resulting from reliance on the results of OCPP certification testing.

For the Open Charge Alliance:

ONOPH CARON
Chairman

Abstract of test report

Test Result Summary

Test Report	OCPP 1.6	Certification		
Test laboratory:	Korea Smart	Grid Association		
Location:	Seoul , Korea			
Test Report Reference:	KSGA-OCPP1.6TEST-053-2022			
Vendor name:	Daeyoung Ch	naevi		
Device Under Test:	Charging Stati	ion		
Communication:	JSON			
OCPP Software version:	CS.AC.1.0.1			
Test Result Summary	for the ce	rtified functionalities		
Functionalities	OCPP 1.6	Description		
	Certification			
	Test Results			
Core	Pass	Basic Charging Station functionality for		
		booting, authorization (incl. cache if		
		available), configuration, transactions,		
		remote control.		
Optional features				
Firmware Management	N/A	Support for (remote) firmware update		
a. ca.a.gcc		management and diagnostic log file		
		download.		
Smart Charging	N/A	Support for Smart Charging (all profile		
Sinar Charging		types, including stacking), to control		
		charging.		
Reservation	N/A	Support for reservation of a connector		
		of a Charging Station.		
Local Authorization List Manageme	N/A	Features to manage a local list in the		
		charging station containing		
		authorization data for whitelisting		
		users.		
Remote Trigger	N/A	Support for remotely triggering		
		messages that originate from a		
		Charging Station. This can be used for		
		resending messages or for getting the		
		latest information from the Charging		
		Station.

Performance Measurement Results

Performance Measurement Results				
Name	PICS value	Measured value	Description	
OCPP triggered function timeout:	90s	00:00:51	The response time for when waiting for an OCPP function with its corresponding request message. (Firmware update, Diagnostics and Reboot are excluded from this measurement.)	
OCPP response timeout:	30s	00:00:04	The response time for when waiting for an OCPP response message.	
Response time RemoteStartTransaction:	30s	00:00:00	The response time for the RemoteStartTransaction message.	

Test Configuration
