OCPP 1.6 Subset Certificate

Certificate holder: PUMPKIN Co., Ltd.

Certificate number: OCA.0016.0784.CS

Product type: Charging Station

Product designation: eBAB-195KS-C2B-PS

OCPP Software version: 1.3.4

Hardware feature set as stated below

Certification date: June 17, 2024

This certificate attests that the above mentioned product successfully completed certification testing in conformance with the reference specification OCPP 1.6 – Edition 2 with OCPP 1.6 Errata sheet (v4.0 Release, 2019-10-23). The optional features of the protocol covered by this certificate can be found in the abstract of this certificate.

Test cases have been performed as described in the test report referred to below. The results and remarks can be found in the complete test report.

Applied tests	Performed by / on	Document evidence
Conformance testing according to the test specification referenced by the test report	Korea Testing Certification institute, June 17, 2024	KTC2024-00439_Test report_signed

The abstract of test report in the Annex is an integral part of this certificate. This certificate is valid from the Certification Date specified above. This certificate is only applicable to the product designation described above and permits the use of the OCPP logo as laid down in the OCA certification logo license agreement on this product only.

This certificate shall neither be tendered nor accepted by any party as a guarantee covering quality of a product which includes OCPP. The Open Charge Alliance, and/or its agents, including, inter-alia, test laboratories, disclaim liability for any damages or losses incurred by the certified company or by any other party resulting from reliance on the results of OCPP certification testing.

For the Open Charge Alliance:

ONOPH CARON
Chairman

Abstract of test report

Test Result Summary

Test laboratory: Korea Testing Certification institute				
Location: Gyeonggi-do Korea				
Test execution location: Gyeonggi-do Korea				
Test Report Reference: KTC2024-00266				
Vendor name:	PUMPKIN			
Device Under Test: Charging Station				
Communication: JSON				
OCPP Software version: 1.3.4				
Product designation:	eBAB-195KS-C2B-PS			

Product designation:	eBAB-195KS-C2B-PS			
Test Result Summary for the certified functionalities				
Functionalities	OCPP 1.6 Certification Test Results	Description		
Core	Pass	Basic Charging Station functionality for booting, authorization (incl. cache if available), configuration, transactions, remote control.		
Optional features				
Firmware Management	N/A	Support for (remote) firmware update management and diagnostic log file download.		
Smart Charging	N/A	Support for Smart Charging (all profile types, including stacking), to control charging.		
Reservation	N/A	Support for reservation of a connector of a Charging Station.		
Local Authorization List Management	N/A	Features to manage a local list in the charging station containing authorization data for whitelisting users.		
Remote Trigger	N/A	Support for remotely triggering messages that originate from a Charging Station. This can be used for resending messages or for getting the latest information from the Charging Station.

Performance Measurement Results

Name	PICS value	Measured value	Description
OCPP triggered function timeout:	300 s	00:01:16	The response time for when waiting for an OCPP function with its corresponding request message. (Firmware update, Diagnostics and Reboot are excluded from this measurement.)
OCPP response timeout:	30 s	00:00:01	The response time for when waiting for an OCPP response message.
Response time RemoteStartTransaction:	30 s	00:00:00	The response time for the RemoteStartTransaction message.
